ATLAS – CONSTRUCTION MACHINERY MANUFACTURER WITH TRADITION

From person to person

When Hinrich Weyhausen started selling construction and agricultural machinery in 1919, he discovered that the machines which his customers actually needed were not available. So he listened to them carefully and went about building the machines himself – exactly according to the requirements of the people who used his machines every day. He carried out pioneering work with a passion under the brand name of Atlas. His focus was always on the benefit of the machines. And nothing has changed for us in terms of this ideal today.

**Atlas will make you strong
with excellent products and
a comprehensive service.**

With highly motivated employees, a great deal of commitment and expertise ATLAS GmbH develops successful crane & excavator technologies. Numerous customers, engineers and experts all around the globe have made their contribution. The result is robust equipment to enable you to work more effectively and safely than ever before.

As our know-how grew, so too did our dealer and service network worldwide.

We can hence guarantee – in those days and today too – that we will always be on the spot when you need us.

Atlas manufactures a wide range of equipment for the construction, railroad, material handling and infrastructure industries. You will find more information on Atlas under www.atlasgmbh.com.

CUSTOMER SATISFACTION IS OUR PRIORITY!

WE ARE COMMITTED

to providing our customers with highest quality products and services.

QUALITY STANDARDS AND CUSTOMER SATISFACTION

are measured in terms of service performance, reliability, relevance and timeliness.

OUR COMPANY'S MISSION, GOALS AND OBJECTIVES

are directed towards ongoing process improvement as a basis for strengthening our competitive position and for improving product quality and service standards.

QUALITY STANDARDS AND CUSTOMER SATISFACTION

are measured in terms of product performance and reliability.

**STRENGTH
PRODUCTIVITY
STABILITY**

ATLAS KOMPAKT introducing the series of mini excavators that now includes 9 models from 1.0 to 8.3 tons. These compact yet powerful machines are ideal for use in tight spaces and applications such as general and residential construction, landscaping and utility work.

Sleeve of pipe wire

Auxiliary pipes (Standard)
Hydraulic quick hitch
pipes (Optional)

Cast slew joint

Collected grease filling

Foldable dozer blade

LED working light

LED warning light

Tools placement location

OUTSTANDING PERFORMANCE

Powered by T4F and Stage 5 YANMAR and PERKINS engine and equipped with excellent hydraulic system and elements; coordinated and smooth compound movement of boom, bucket rod, bucket and slewing, which deeply impressed the users among products of the same tonnage. Based on reliable suppliers, ATLAS KOMPACT will provide you comfort and fuel efficiency.

Quick change device

It can allow the removal and installation of various buckets and attachments in a time-saving and rapid manner.

Working device pipeline

The transitional connection is applied for all working pipelines at the boom root to ease repairs and replacement and all exposed pipelines vulnerable to collision or scratch are protected by steel sleeves to effectively prolong the life.

Comfort operation environment

Wider space and wide view enabled by enlarged front windscreen and sunroof; in addition, the high-quality floating shock absorber seat, imitation leather interior on the top, radio, cupholder and reading light ensure a comfortable driving experience.

Safe driving space

Frame supported cab with FOPS/TOPS safety certificate; regular top protection rail ensures safe driving; hidden seat belt, safety hammer, pilot lock rod, slewing parking brake, traveling parking brake and start-up mechanism of engine at neutral gear.

COMFORT IS ALL WE NEED

Simple and easy switch control

Clear monitoring instrument that is easy to operate

List of display items:

- Coolant temperature
- Fuel level
- Working hours
- Time
- Traveling mode
- Operation light
- Various warning lights of engine
- Overheat warning
- Oil pressure warning
- Charging indication
- Working light indication

Easy service

The door and engine hood can be open completely for daily inspection and change of filter. The left lower service hole makes easier maintenance of multi-way valve without removing covering parts.

- | | | |
|-----------------------------|--------------------|---------------------|
| ● Air filter | ● Oil filter | ● Return oil filter |
| ● Oil-water separator | ● Battery | ● Coolant filter |
| ● Fuel filter | ● Fuel filter | ● Expansion tank |
| ● Electric oil suction pump | ● Hydraulic filter | |

Telescopic chassis

Controlled by simple single joystick, the chassis width can be retracted to 750 mm to adapt to narrow spaces. On the contrary, the chassis width can be extended to 1000 mm to improve the stability by 15% and even allow the use of hydraulic breaking hammer.

With the chassis retracted to 750 mm, our model AC08B can drive through most narrow door openings successfully for operations indoors.
